GitHub: <https://github.com/Abhinav1525>

Email: abhinavbansal720@gmail.com
Mobile: +91 6307615650

Skills

Languages: Python, C++, Java, R Programming, SQL

Technologies/Frameworks: R Studio, Tableau, MS Excel, GitHub, MYSQL, MongoDB, Matplotlib, Jupyter Notebook

Technical Skills: Data Structure & Algorithms, Machine Learning, Data Wrangling, Statistical Analysis

Soft Skills: Critical Thinking, Attention to Detail, Adaptability, Time Management, Team Player, Communication.

Internships

Data Science Intern – Ediglobe	Dec 2024 – Mar 2025
- Engaged in hands-on projects to extract insights, make predictions, and optimize processes using mathematics, statistics, and programming. - Utilized tools like R and Tableau to develop data-driven solutions, enhancing analytical and visualization skills. - Built data models and interactive visualizations to gain practical experience in data analysis, improving decision-making and problem-solving capabilities.	
Data Analyst Virtual Intern - Accenture (Forage)	Dec 2023 - Jan 2024
- Analyzed diverse datasets using Excel, applying data exploration and preprocessing techniques to uncover meaningful trends and patterns. - Designed interactive Tableau dashboards to enhance data-driven decision-making and support strategic business insights. - Evaluated project outcomes by identifying key growth opportunities, leading to optimized business strategies and improved performance.	

Projects

Diabetes Prediction Model R Programming, Predictive Analysis	Sep 2024 - Nov 2024
- It classifies diabetes data using five models: Linear Regression, Logistic Regression, Naive Bayes, SVM, and Decision Tree. - Preprocessed and normalized data, split datasets, trained models, and evaluated performance through accuracy metrics and confusion matrices. Visualized decision boundaries and accuracy comparisons to identify the most effective model. - GitHub Repository Link: https://github.com/Abhinav1525/Diabetes-Prediction	
AI-Powered Chatbot Python, AI & Machine Learning	Jun 2024 – July 2024
- Built a chatbot using Ollama LLM with Python and deployed it on a web interface using Streamlit, enabling seamless user interaction. Applied natural language processing (NLP) techniques to enhance conversational capabilities. - Successfully deployed a functional chatbot, gaining hands-on experience in LLM integration, web deployment, and user interaction, improving problem-solving and model optimization skills. - GitHub Repository Link: https://github.com/Abhinav1525/Chatbot-using-Ollama-LLM	

Certifications / Certificates

Data Analysis with Tableau, Coursera	Sep 2024 – Nov 2024
Cloud Computing, NPTEL	Jul 2024 – Oct 2024
Python, Data Science & Machine Learning Integrated, CipherSchools	Jun 2024 – Aug 2024
Excel Skills for Business, Coursera	May 2024
Data Science Training and Internship, Devtown	Dec 2023 – Jan 2024

Achievements

- Secured 4th rank in the Cyber Security Hackathon: Capture the Flag (CTF)
- Runner Ups in Inter-Hostel Football Competition
- Active member in NGO – Robin Hood Army

Education

Lovely Professional University Computer Science and Engineering — CGPA: 7.73	Since 2022 Phagwara, Punjab
City Montessori School 12th with Science — Percentage: 96.50%	2021 – 2022 Lucknow, Uttar Pradesh
City Montessori School 10th with Science — Percentage: 92.8%	2019 – 2020 Lucknow, Uttar Pradesh
